Dear Sir / Madam,

There is variation in land area in the land certificate as well as in OASIS data whereas as per land certificate it is 13980 sq.mt. and in application it is mentioned as 13961 sq.mt. What's given in the certificate is the correct measurement and it's wrongly entered in OASIS. We hereby undertake the responsibility to rectify in the OASIS as soon as the portal is open.

Thanking You,

Yours Sincerely

V. SHANMUGAPRABU
