

VIKASA

TRI MONTHLY NEWSLETTER
(APRIL/MAY/JUNE)VOLUME-1
2022-2023

FROM THE CHAIRMAN'S DESK

My heartiest congratulations to the editorial team for bringing out the first edition of Tri- Monthly newsletter "VIKASA" 2022. It is our wish to reach out to all the stakeholders, associates, parents and all our friends and well-wishers through a medium that provides a brief insight into our school program and activities. We endeavour to provide a curriculum with a difference. One that balances excellence in learning with an all-round cultural, physical, mental and moral development. Our attempt is to make the most formative and beautiful years of our students lives a joy forever.

Measurable progress has been made last three years. The upcoming years will be equally demanding. We will try to make the newsletter a useful vehicle for dissemination of relevant programs, experiences, notifications and information. With Best wishes

DR V SHANMUGA PRABU,
CHAIRMAN – VMPS

FROM THE DESK OF PRINCIPAL

It is a matter of gratification to pen down the message for the first volume of Tri monthly newsletter "VIKASA" for the academic year 2022-23. The school newsletter is a manifesto for the students to demonstrate their creative thinking. It is a tool which will surely help you to get a glimpse of month wise activities and achievements of the students of our school. I am sure that the quality and variety of contents would not only be informative but also impressive and enjoyable. In this pursuit of excellence, I appreciate our parent fraternity for supporting the school in every aspect. I also laud the relentless efforts of our teachers for giving their best in bringing out the best in every child. My sincere wishes for the editorial team of Vikas Mantra Public School

MS PRIYANKA GHOSH J
PRINCIPAL, VMPS

FROM THE EDITORIAL BOARD

Welcome to the First edition of the Trimonthly newsletter of Vikas mantra public school. The magazine is to be viewed as a launch pad for the children's creative urges to blossom naturally. As the saying goes, a mind like a parachute works best when opened. This humble initiative is to set the budding minds free allowing them to roam freely in the realm of imagination and experience to create a world of beauty in words. The enthusiastic write ups of our young writers are indubitably sufficient to hold the interest and admiration of the readers. We are sure that the positive attitude, hard work, sustained efforts and innovative ideas exhibited by our young buddies will surely stir the minds of the readers and take them to the surreal world of unalloyed joy and pleasure.

HOD'S CORNER

EDUCATION

“Education is the key to Prosperity and opens a world of opportunities for everyone.”

The primary action plan of quality education aims at ensuring inclusive and equitable quality and promoting life-long learning opportunities for all. Due to unexpected pandemic, all of a sudden the educational service providers have become digital mode without much preparation, training or planning. But the learnings are many such as the integration of IT, internet, cloud, AI, data science and its collaboration in education. It will be further accelerated and hybrid education eventually becomes the fundamental component of future education. Post pandemic we are not only away from many factors including the closure of regular schooling, cancellation of assessments, totally digitalized version of distance learning etc. but also it has made revolutionary changes in thoughts, actions and attitudes and values concerns of the people's mind set particularly among students.

गुणवत्तापूर्ण शिक्षा क्यों महत्वपूर्ण है ?

हमसभी जानते हैं कि तकनीकी शिक्षा का चेहरा बदल रहा है। न केवल शिक्षा प्राप्त करने का तरीका बदल गया है बल्कि छात्रों को पढ़ाने के तरीकों का भी विकास हुआ है। पहले, शिक्षा के तारफ़ा ज़्यादा थी, लेकिन आजकल, शिक्षक छात्रों को कक्षाओं में सूचना के दो-तरफ़ा प्रवाह को बनाए रखने के लिए प्रोत्साहित करते हैं। छात्रों के बीच प्रभावपूर्ण निरंतरता और व्यक्ति को प्रोत्साहित करने के लिए, शिक्षण प्रथाओं के एक परिष्कृत तरीके को ढूँढना जरूरी होगा। लैटेंट टेक्नोलॉजी के युग में, दुनिया में कौन से भी जानकारी प्राप्त की जा सकती है। भले ही गुणवत्तापूर्ण शिक्षा प्रदान करने के लिए एक छात्र के व्यक्तित्व को आकार देने के लिए बहुत प्रयासों की आवश्यकता होती है। गुणवत्तापूर्ण शिक्षा से आशय शिक्षा में गुणों का विकास करना या गुणों का समावेश करना है जिससे छात्रों एवं शिक्षा के उद्देश्यों की प्राप्ति भली-भाँति हो सके। जबकि सीकार्य में उस कार्य से सम्बंधित सभी गुणों का (व्यावहारिक एवं सैद्धांतिक) समावेश होता है तो उस कार्य की गुणवत्ता के रूप में देखा व समझा जाता है और यही पहलू शिक्षा में भी होता है। हम शिक्षा में गुणवत्ता की बात जब करते हैं तो हम एसे शिक्षा को गुणवत्तापूर्ण मानेंगे जो छात्रों को उस शिक्षा का लाभ पहुँचाए। गुणवत्तापूर्ण शिक्षा (Quality Education) क्या है? गुणवत्तापूर्ण शिक्षा से आशय एसे शिक्षा से है जो अपने निर्माण के उद्देश्यों के भली-भाँति निर्वहन करे। गुणवत्तापूर्ण (Quality Education) शिक्षा में प्रायः-उसी शिक्षा का समावेश होता है। जो शिक्षा शिक्षण-अधिगम में छात्रों की रुचि एवं क्षमताओं को समझे एवं समाज की आवश्यकताओं की पूर्तिकरें और छात्रों को जीविकोपार्जन योग्य बनाये। भारत की बात हम करें तो भारत ने आपको कई सेपड़े-तिखे मिल जाएँगे जो शिक्षा प्राप्ति के बाद भी बेरोजगार हैं। औसतन देखें तो शिक्षित लोग ही बेरोजगार हैं और ये हमारी शिक्षा व्यवस्था के लिए शर्म की बात है। शिक्षण-अधिगम के 4 उद्देश्य निर्धारित किए गए जो इस प्रकार हैं-

१) बनना सीखना (Learning to Be) – अर्थात् व्यक्तियों के व्यक्तित्व का निर्माण करना, उनके सामाजिक, आर्थिक, राजनीतिक, सांस्कृतिक गुणों का विकास करना। छात्रों को इस तरह तैयार करना कि वह देशकालपरिस्थितियों के अनुसार समाज के साथ समन्वय स्थापित कर सकें। छात्र अपने सामाजिक कर्तव्यों का भली-भाँति निर्वहन कर सकें।

२) करना सीखना (Learning to Do) –

शिक्षा का उद्देश्य सिर्फ छात्रों का ज्ञानात्मक विकास करना नहीं बल्कि छात्रों के क्रियात्मक विकास पर भी बल देना है। यह छात्रों को करके सीखने को स्थायी शिक्षा मानते हैं और वही शिक्षा गुणवत्ता पूर्ण शिक्षा (Quality Education) मानी जाती है जो स्थायी हो और जिसका प्रयोग छात्र जरूरत पड़ने पर कर सकें।

३) जानना सीखना (Learning to Know) –

इसका अर्थ है ज्ञान को जानना अर्थात् जो ज्ञान छात्र प्राप्त करते हैं उन्हें उस ज्ञान के बारे में पता होना चाहिए कि उसका उपयोग कब और कैसे करना है। यह सब भी है कि सी शिक्षा को हम गुणवत्ता पूर्ण भी कह सकते हैं जब वह शिक्षा छात्र को कुछ भी जानने में उसका सहयोग करे।

४) एक साथ रहना सीखना (Learning to Live Together) –

हम उस शिक्षा को गुणवत्ता पूर्ण शिक्षा के सकेते हैं जो शिक्षा व्यक्तियों को समाज में एक साथ रहना सिखाती है। जो शिक्षा समाज के समस्त कार्यों में सहयोग कर रहा सिखाती हो उस शिक्षा को गुणवत्ता पर खर शिक्षा (Quality Education) कहा जा सकता है।

अतः शिक्षा के प्रमुख उद्देश्य छात्रों का सर्वांगीण विकास करना होता है और यह तभी संभव है जब छात्रों को गुणवत्ता पूर्ण शिक्षा (Quality Education in Hindi) प्रदान की जाए। गुणवत्ता पूर्ण शिक्षा वह नहीं जो सिर्फ ज्ञान पर आधारित हो गुणवत्ता पूर्ण शिक्षा तो वह जो व्यावहारिक है। जो छात्रों को समाज में घुसने योग्य बना सके।

श्रीमती कवितायादव,
हिंदी विभाग अध्यक्ष

"SCIENCE AND EVERYDAY LIFE CANNOT AND SHOULD NOT BE SEPARATED"

Yes being a science teacher, I wish my students must be closely associated with environment. Let the observation skills nurture in them and their scientific temperament encourage them to question, infer problems, draw down solutions and become young innovators

. I feel this learning methodology will keep up their spirit to achieve in future. Parents also have their own responsibility to create interest in science. Let your ward explore things, if he or she turns your kitchen into lab, do not stop them, just be beside them for their safety. Allow them to develop their inquisitiveness and critical thinking skills through activities.

As teachers and parents, it is our sole responsibility to motivate our kids in all their endeavours because, " The whole of science is nothing more than a refinement of everyday thinking".

Ms. R. Pratheeba,
HOD Science Department

DATA SCIENCE

Everyone must be aware of the enormous amount of data that big or small companies collect to provide the best of all services to their

customers. These data may include business information, sales data, customer profile information, passwords, server information, financial figures, etc. This data needs to be organized at some point in time; otherwise, it becomes difficult for companies to provide structured services.

Data science is the extraction of actionable insights from raw data. In simple words, Data science is an interdisciplinary field that uses

scientific procedures, processes, algorithms, and systems to gather information from the raw data. This raw data is used to form structured and understandable information.

They perform these tasks using specialized software. They ensure to organize and analyze data and cater the easy and understandable

information to all the stakeholders. Data science incorporates critical computer science, mathematics, statistics, information visualization, graphic design, complex systems, communication, and businesses. Altogether, they help develop structured data from the raw data and make it easy to understand. The significant benefits of Data Science Technology are client satisfaction, impressive technology, Universal technology and Collaborative Technology.

CELEBRATIONS

Tamil new year celebration

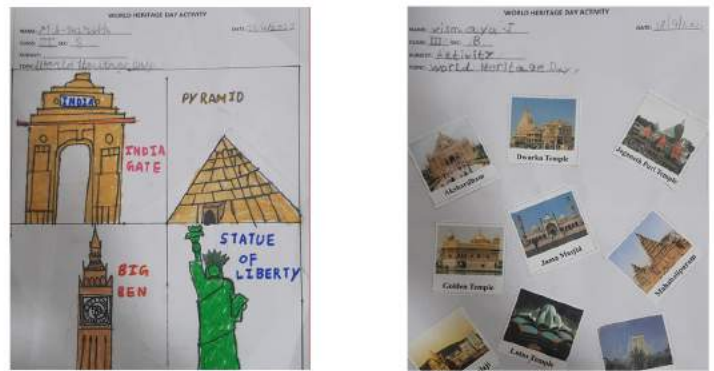

Tamil new year was celebrated with great zeal. Our enthusiastic students portrayed silambam, folk song and dance to show their attitude towards the festival, including activities like greeting card making and coloring.

World Heritage Day

World Heritage Day was observed on 18th April to bring awareness about various Heritage sites and impact of climate change on them.

Students participated in collage making, poster making and essay writing about the day as activities.

"Earth Day"

Earth Day was observed by participating in various activities. Message of awareness to protect our earth from pollution was conveyed to children with different activities like Mime, drawing, colouring, best from waste and poster making etc.

Library week

Children enthusiastically participated in the book reading challenge and enacted their favourite characters on the occasion of World Book Day.

International Yoga Day

On account of International Yoga Day, Seminar on Importance of Yoga was conducted on 21 June 2022 followed by Mass display of yogasanas by students of VMPS.

EDUCATIONAL TRIP

ORIENTATION SESSION ON ARCHITECTURE AT SRM

Our students of grade 9 and 10 attended an orientation session on architecture at SRM college, kattankulathur, Chennai. The session was extremely helpful for students to know about the architecture and designing course in detail.

PARENT ORIENTATION PROGRAMME

Parent Orientation Programme was organised on 18th June 2022.

WORKSHOP

STAFF ORIENTATION PROGRAM

Teachers of Vikas Mantra Public School attended an interactive Staff Orientation program on 1st April 2022

MOTIVATIONAL SESSION FOR TEACHERS

Teachers of VMPS attended a motivational session on 23rd May 2022 conducted by the Resource person Mr. Ramanan, Awakened Citizen Program coordinator, Tamil Nadu. It was indeed a rejuvenating session for all the teachers.

FACILITATING LEARNING THROUGH ACTIVITIES

Teachers of Vikas Mantra Public School attended an activity based training session "Facilitating learning through activities in a Multi Ability classroom". conducted by "Elina" Team on 24th May 2022.

CAPACITY BUILDING PROGRAM

CBSE Capacity Building Program was held on 10th and 11th June 2022 in our school for teachers.

STUDENT'S CORNER**EDUCATION****INTRODUCTION**

Education is a significant tool that provides knowledge, skill, technique, information and enables people to know their rights and duties towards their family, society and the nation. You can expand your vision and outlook to see the world around us. It changes our perception of life. Education builds up the ability to explore new things to enhance your creativity. Your creativity is a tool to develop the nation.

IMPORTANCE OF EDUCATION

People still don't realise what role education and being educated plays in our lives and society. Education empowers everyone. It is an important aspect that shapes the modern and industrialised world. People need education to be able to cope up with the advancements in this competitive world. Following are some areas where education is needed:

- **Removing Poverty:** Education helps in eradicating poverty from our society. An educated person can secure a good job and take care of all the basic needs of his family.
- **Safety and Security against Crime:** A well-educated person cannot be easily duped or become a victim of any crime. They can develop the ability to stand against injustice.
- **Increases Productivity:** Educated people are more productive. With the help of knowledge and skills, they can explore new ideas.
- **Women Empowerment:** Education helps in empowering women. Women can voice out themselves in the society against the injustice done to them. They can be self-reliant and need not be dependent on anyone.
- **Development of a nation:** The countries that focus on educating their citizens and have a higher education level are considered more developed nations in every aspect of their lives..

ROLE OF EDUCATION IN SOCIETY

Education is the social institution through which the society provides its members with knowledge, facts, job skills and values. One of the most important roles of education is that it improves personal lives and helps society to run smoothly. As mentioned above, poverty can be eradicated and every individual can contribute towards the development of the country.

- **Education Creates a Better Society:** An educated person is more likely to develop better moral and ethical values as compared to an uneducated person. Education brings equal opportunity for everyone and educated people will be able to create a better society.

CONCLUSION

Education is the pathway for a nation's progress. Education is the backbone of society. The government should take all measures to provide education to every individual of the country. This will bring equality among people and when people improvise their way of living, they become more responsible towards society. The government, along with co-operation with the citizens, should make the society and nation a better place to live in. The growth of every nation depends upon the kind of population it has. A well-educated population will make a well-developed nation.

K. Jai Akash
Grade 8

EDUCATION'**INTRODUCTION:**

Nelson Mandela rightly said, "Education is the most important weapon to change the world." Education plays an important role in the development of an individual and making him a knowledgeable citizen. It is the education that makes an individual self-reliant, helps to suppress the social evils and contribute towards the development of the society and nation as a whole. Education is a process of learning through which we acquire knowledge. It enlightens, empowers, and creates a positive development.

Education gives an individual the knowledge and skills to work with virtue. It aids the all-round mental, physical, and intellectual growth and development of an individual. It makes man the smartest creature on earth.

IMPORTANCE OF EDUCATION:

People still don't realise what role education and being educated plays in our lives and society. So, before making people aware of education and working for their access, it is very important to understand the need and importance of education. Education includes traditional learning methods that include theories and modern methods that include practical implementation of the subjects. Education empowers everyone. It is an important aspect that shapes the modern and industrialised world. People need education to be able to cope up with the advancements in this competitive world. Education is the social institution through which the society provides its members with knowledge, facts, job skills and values. One of the most important roles of education is that it improves personal lives and helps society to run smoothly.

CONCLUSION:

Education is the 'Backbone' of the society. Therefore, it is an established fact that without education, an individual or nation can never climb over the ladder of success and glory.

SCIENTISTS DISCOVER 'SUPER WORMS' CAN EAT PLASTIC WASTE

Scientists from the University of Queensland have found a certain species of worm can eat polystyrene, offering a potential solution to the plastic problem. The *Zophobas morio* has been deemed a 'super worm' by researchers, who discovered bacterial enzymes in the worm's gut allows it to digest polystyrene. During the study, led by Dr Chris Rinke and his team, the super worms were put on different diets over a three-week period, with some given polystyrene foam, some given bran and others put on a fasting diet.

'We found the superworms fed a diet of just polystyrene not only survived, but even had marginal weight gains,' Dr Rinke said. 'This suggests the worms can derive energy from the polystyrene, most likely with the help of their gut microbes.' Researchers also used the metagenomics technique to uncover several encoded enzymes with the ability to degrade polystyrene and styrene. In the long term, they plan to engineer enzymes to degrade plastic waste in recycling plants through mechanical shredding, followed by enzymatic biodegradation. 'Superworms are like mini recycling plants, shredding the polystyrene with their mouths and then feeding it to the bacteria in their gut,' explained Dr Rinke. 'The breakdown products from this reaction can then be used by other microbes to create high-value compounds such as bioplastics.' Scientists hope this discovery will incentivise plastic waste recycling and reduce landfill, as the team aim to further investigate the gut bacteria's ability to degrade polystyrene.

WHAT IS EDUCATION

First of all, education gives the ability to read and write to anyone. A good education is extremely essential for everyone to grow and succeed in life. Education increases self-confidence and assists in developing the personality of a person. Education plays a big role in our life. Education is split into 3 parts such as primary education, secondary education, and higher secondary education. All these 3 divisions of education have their value and advantages. Primary education is the base of education for a person, secondary education paves the direction for further education and higher secondary education makes the future and the ultimate way of life. Education is important for both men and women as both have an essential role in the development of a healthy and smart society. Education is a necessary way for delivering a brilliant future and at the same time performs the most significant part in the growth and improvement of the nation. The citizens of the nation are responsible for the greater future and progress of the nation. Education helps a person to get knowledge and improve confidence in life. It can help you improve in your career and your personal growth. An educated person can become a great citizen in society. It helps you to take the right decisions in life.

EDUCATION

Education is the sum total of civilized behaviour, progress, peace, development, and human dignity. Education is the systematic way to achieve knowledge, get progress and bring prosperity and success in our lives. Education is the most powerful tool that makes what we are today. Therefore, it is quite right to say that the education is the standard of the success of many nations around the world. Without it, the entire purpose of human creation is of no use. It improves ourselves from within. It helps refine character, strengthen morality, broaden the outlook and it prepares a nation for a good tomorrow.

Education brings better ideas and new ways of thinking in your life. It makes us more positive and focused in our tasks. Only the education broadens the understanding, insight of individuals to make them a better and responsible citizens
